### Intern rules for under 18

The participation of the player to sportive activities is mandatory. For the practice of sports, simple hygiene rules must be applied, as an example : forbidding of smoking, sufficient time of sleeping, adjusted food...

Besides, the organizer, in agreement with the general rules of the reception of under 18 children in our facilities, reminds you that drinking alcohol is forbidden, as well as smoking in every public place and every place of the training camp. Moreover, the organizer will be extremely watchful to forbid the selling of substances such as drugs. The goings will be closely supervised, and we expect all under 18 children to make a commitment to respect the rules and the schedule.

The disrespect of the intern rules can lead to a serious argument with parents, the tutor, depending on the seriousness of the facts. In case of that fault is very serious, the player will be sent back home by the organizer immediately. The possible fees generated by the expulsion will be on the charge of the child's parents.

By registering an under 18 child to the GVHTT Academy, parents, tutors, legal representation accept the possible setting up of their civilian responsibility, and make the commitment to inform the player about it. The organizer declines any responsibility as for vandalism, voluntary destruction of materials, or thieveries committed by other players during the training camp. The organizer declines any responsibility as for stealings or damages of objects unentrusted by the player.

During the training camp period, the player is under close and permanent supervision of the staff members. The supervision of the training camp players starts from the arrival at the meeting place and ends at the end of the training camp at the same place.
